

SAFETY INSTRUCTIONS FOR PROGRAMS WITH DIRECT CONTACT WITH A WOLF

- Please do not carry any food, animal treats, cigarettes, lighter, lip balm or similar strong-smelling things with you.
- Never approach the wolf directly. Let the animal come to you.
- Do not bend over. It will signal the wolf that it is not welcomed, and it will walk away from you.
- Eye contact is not a problem, but please do not stare into the eyes of the wolf.
- Interactions between a wolf and a visitor cannot be guaranteed. The wolf decides if it wants to come close.
- If the wolf passes you NEVER reach for it or try to pet it without asking for permission.
- Please do not try to lure, call a wolf or howl with them.
- If wolves fight close to you, please stay calm - there is no danger!
- If you feel unwell, please inform us immediately.

IMPORTANT: follow all instructions given by the WSC staff!
